**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Alfred Dassler (Reg. No. 52,794) on 12/8/2006.

**IN THE CLAIMS:**

In claim 1, line 13, after "openings", -- , said ventilation openings extending vertically through said feed table and connecting to surrounding air -- has been inserted.

In claim 4, line 2 after "formed", "with said rows of suction apertures and" has been deleted.

***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

Independent claim 1 of the 09/22/2006 amendment, as modified by the examiner's amendment, is patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth including at least one suction belt disposed to be guided over a feed table and to be subjected to suction air from an underside thereof, in which the at least one suction belt has at least two mutually spaced-apart rows of suction openings formed therein and a continuous region, substantially without any openings, between the spaced-apart rows of suction openings and the feed table has ventilation openings formed therein directly underneath the continuous region between the rows of suction openings, and the ventilation openings extend vertically through the feed table and connect to surrounding air.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
